Aetna Healthcare - *Hartford, CT*	*June 2012 – Present*

Leadership Development Professional – Rotational Program
Selected to be 1 of 8 out of ~700 applicants to participate in Aetna's Leadership Development Program that fast tracks member growth through progressive rotations, stretch assignments, and extensive leadership and communication training.

Medical Economics Consultant (Rotation 5)
- Provides essential analytical support to Aetna's Accountable Care Solutions business. Currently working on strategic initiatives to improve the efficiency of healthcare networks and programs.

Lead Data Visualization Analyst / Vendor Review Process Manager – Security Data Analytics (Rotation 4)
- Key teammate and lead on dynamic analytical team that worked to synthesize larger datasets to advance IT Security business objectives.
- Improved department efficiency by developing repeatable methodology for customer interaction and data mining project-lifecycle.
- Improved Vendor Review management process by delivering strategic tracking solution, standardizing best practices, and relieved process bottlenecks.

Strategy & Process Consultant – Program Delivery: Government Programs (Rotation 3)
- Executed on executive direction by serving as Deputy Chief of Staff for Vice President of Government Program Delivery.
- Improved Business Partner Satisfaction Score (+10%) by developing and executing on strategic roadmap to enhance communication, employee engagement, project delivery data collection, and financial tracking
- Improved $2.7M monthly budget variance from 10% to 1% by implementing stringent forecasting and approval processes.

Project Manager – Client Engineering: Optimization (Rotation 2)
- Improved project SLA by 2 days (40%) by developing communication/notification strategy that eliminated bottlenecks and ambiguity.
- Developed project roll-out plan to achieve 100% of planned cost-savings goal for multi-year, multi-million dollar optimization project.
- Improved project investment process by conducting ad-hoc financial analysis of project direct and indirect costs.

Associate Program Manager – Program Delivery: Strategic Programs (Rotation 1)
- Achieved $100k of portfolio refunds (~15% of remaining project budget) through development of a resource allocation tracking process that highlighted areas of misallocations.
- Developed communication strategy to improve project delivery, cost, and expectation management across a portfolio of projects involving multiple teams across the enterprise.

RELEVANT SKILLS
- Demonstrated ability to quickly ramp-up, communicate effectively, and deliver results in a fast-paced environment.
- Experience working in Data Visualization, Business Analytics, and Predictive Modeling using tools such as Tableau, SAS Suite, MS Office Suite, R, Hadoop, JMP, and tools within the Hadoop Ecosystem.
- Proficient in modeling with Microsoft Excel – expected to complete Argus certification by February 2015
